VOLUME 118, 1991

THE New Phytologist

Founded in 1902 by Sir Arthur Tansley F.R.S.

EDITED BY

I. J. Alexander	*Aberdeen*
P. G. Ayres	*Lancaster*
D. Briggs	*Cambridge*
J. E. Dale	*Edinburgh*
J. G. Duckett	*London*
J. F. Farrar	*Bangor*
A. H. Fitter	*York*
J. R. Gallon	*Swansea*
D. H. Lewis	*Sheffield*
T. A. Mansfield F.R.S.	*Lancaster*
D. Sanders	*York*
R. G. West F.R.S.	*Cambridge*
M. M. Yeoman	*Edinburgh*

Advisors to *The New Phytologist Trust*

Sir John Burnett	*Oxford*
L. Leyton	*Oxford*
Sir David Smith F.R.S.	*Edinburgh*
P. J. Syrett	*Swansea*

CONTENTS

MAY 1991 VOLUME 118 NUMBER 1

Editorial Note. The 'Tansley Manifesto' of 1917 – *plus ça change*...? 1

The 'Tansley Manifesto' affair. By A. D. BONEY 3

The interpretation of *in vitro* measurements of fructosyl transferase activity: an analysis of patterns of fructosyl transfer by fungal invertase. By ANDREW J. CAIRNS and JENNIFER E. ASHTON 23

Accumulation and consumption of solutes in swards of *Lolium perenne* during drought and after rewatering. By HENRY THOMAS 35

Evidence for the involvement of ethene in aerenchyma formation in adventitious roots of rice (*Oryza sativa* L.). By S. H. F. W. JUSTIN and W. ARMSTRONG 49

On the relationship between specific root length and the rate of root proliferation: a field study using citrus rootstocks. By DAVID M. EISSENSTAT 63

Histological analysis of the expression of *Agrobacterium rhizogenes rolB*-GUS gene fusions in transgenic tobacco. By M. M. ALTAMURA, T. ARCHILLETTI, I. CAPONE and P. COSTANTINO 69

Magnesium requirements of subterranean clover (*Trifolium subterraneum* L.) either reliant on symbiotic nitrogen fixation or supplied with nitrate. By B. J. SCOTT and A. D. ROBSON 79

Stimulation of vesicular–arbuscular mycorrhiza formation and growth of white clover by flavonoid compounds. By J. O. SIQUEIRA, G. R. SAFIR and M. G. NAIR 87

Tocopherols and leaf age in *Xanthium strumarium* L. By J. MOLINA-TORRES and M. L. MARTINEZ 95

Responses of potato plants to sulphur dioxide, water stress and their combination. By MA QIFU and FRANK MURRAY 101

Simulated acid rain and the reproduction of mountain birch [*Betula pubescens* ssp. *tortuosa* (Ledeb.) Nyman]: a cautionary tale. By S. NEUVONEN, T. NYYSSÖNEN, H. RANTA and S. KIILUNEN 111

Sulphate and ammonium in mist impair the frost hardening of red spruce seedlings. By J. N. CAPE, I. D. LEITH, D. FOWLER, M. B. MURRAY, L. J. SHEPPARD, D. EAMUS and R. H. F. WILSON. 119

Seasonal changes in the pigments, carbohydrates and growth of red spruce as affected by exposure to ozone for two growing seasons. By R. G. AMUNDSON, R. G. ALSCHER, S. FELLOWS, G. RUBIN, J. FINCHER, P. VAN LEUKEN and L. H. WEINSTEIN. . . . 127

Sensitivity of frost resistance and growth in citrus and avocado to chronic ozone exposure. By D. M. EISSENSTAT, J. P. SYVERTSEN, T. J. DEAN, G. YELENOSKY AND J. D. JOHNSON 139

Late- and post-glacial vegetational change at Black Loch, Fife, eastern Scotland – a multiple core approach. By GRAEME WHITTINGTON, KEVIN J. EDWARDS and PETER R. CUNDILL 147

A 12 500 year record of vegetational history at Sluggan Bog, Co. Antrim, N. Ireland (incorporating a pollen zone scheme for the non-specialist). By A. G. SMITH and I. C. GODDARD 167

REVIEWS 189

JUNE 1991 VOLUME 118 NUMBER 2

Tansley Review No. 30.

The phytoplanktonic ways of life. By G. E. FOGG 191

A light and electron microscope study of rhizoid–ascomycete associations and flagelliform axes in British hepatics with observations on the effects of the fungi on host morphology. By J. G. DUCKETT, K. S. RENZAGLIA and K. PELL 233

The use of the fluorescent dye, 3,3′-dihexyloxacarbocyanine iodide, for selective staining of ascomycete fungi associated with liverwort rhizoids and ericoid mycorrhizal roots. By JEFFREY G. DUCKETT and DAVID J. READ 259

Localization of aluminium in the roots of Norway spruce [*Picea abies* (L.) Karst.] inoculated with *Paxillus involutus* Fr. By M. J. Hodson and D. A. Wilkins 273

In vitro synthesis of ectomycorrhizas on Casuarinaceae with a range of mycorrhizal fungi. By Costas Theodorou and Paul Reddell 279

Root factors stimulate ^{32}P uptake and plasmalemma ATPase activity in vesicular–arbuscular mycorrhizal fungus, *Gigaspora margarita*. By J. Lei, G. Bécard, J. G. Catford and Y. Piché 289

Application of the diffusion equation for modelling splash dispersal of point-source pathogens. By Xiusheng Yang, Laurence V. Madden and Ross D. Brazee . . 295

An alternative nitrogenase is not expressed in molybdenum-deficient legume root nodules. By M. J. Dilworth and J. F. Loneragan 303

Low temperature-enhanced inhibition of photosynthesis by oxides of nitrogen in lettuce (*Lactuca sativa* L.). By S. J. M. Caporn, T. A. Mansfield and D. W. Hand . . 309

Root and soil respiration responses to ozone in *Pinus taeda* L. seedlings. By Nelson T. Edwards 315

Effects of summer ozone on membrane lipid composition during subsequent frost hardening in Norway spruce [*Picea abies* (L.) Karst]. By J. Wolfenden and A. R. Wellburn 323

Seasonal changes in antioxidants in red spruce (*Picea rubens* Sarg.) from three field sites in the northeastern United States. By Nageswara R. Madamanchi, A. Hausladen, Ruth G. Alscher, R. G. Amundson and S. Fellows 331

Changes in germinability, ABA content and ABA embryonic sensitivity in developing seeds of *Sorghum bicolor* (L.) Moench. induced by water stress during grain filling. By R. L. Benech Arnold, M. Fenner and P. J. Edwards 339

Seasonal uptake and allocation of phosphorus in *Eriophorum vaginatum* L. measured by labelling with ^{32}P. By Sven Jonasson and F. Stuart Chapin III 349

Reviews 359

JULY 1991 VOLUME 118 NUMBER 3

The Tansley Fund of *The New Phytologist* Trust 365

The xylem wedge as a functional unit – speculations on the consequences of flow in leaky tubes. By M. J. Canny 367

Architectural analysis of plant root systems. 1. Architectural correlates of exploitation efficiency. By A. H. Fitter, T. R. Stickland, M. L. Harvey and G. W. Wilson . 375

Architectural analysis of plant root systems. 2. Influence of nutrient supply on architecture in contrasting plant species. By A. H. Fitter and T. R. Stickland 383

Relationship between root cortical senescence and growth of wheat as influenced by mineral nutrition, *Idriella bolleyi* (Sprague) von Arx and pruning of leaves. By D. Lascaris and J. W. Deacon 391

Effects of air pollution and water stress on leaf blight and twig cankers of London planes [*Platanus* × *acerifolia* (Ait.) Willd.] caused by *Apiognomonia veneta* (Sacc. & Speg.) Höhn. By Roman Von Sury and Walter Flückiger 397

Biophysics of leaf growth of hybrid poplar: impact of ozone. By D. L. Frost, Gail Taylor and W. J. Davies 407

Acclimation to ozone stress in radish: leaf demography and photosynthesis. By A. A. Held, H. A. Mooney and James N. Gorham 417

Short term effects of bisulphite on pollution-tolerant and pollution-sensitive populations of *Sphagnum cuspidatum* Ehrh. (ex. Hoffm.). By R. Baxter, M. J. Emes and J. A. Lee . 425

Transition metals and the ability of *Sphagnum* to withstand the phytotoxic effects of the bisulphite ion. By R. Baxter, M. J. Emes and J. A. Lee 433

Seasonal variations in acidic pollutant inputs and their effects on the chemistry of stemflow, bark and epiphyte tissues in three oak woodlands in N.W. Britain. By A. M. Farmer, J. W. Bates and J. N. B. Bell 441

Effects of phosphate supply on the phosphorus status, dry mass and photosynthesis of wheat infected with powdery mildew. By J. N. Zulu, J. F. Farrar and R. Whitbread 453

Soil mediated effects of phosphorus supply on the formation of mycorrhizas by *Scutellispora calospora* (Nicol. & Gerd.) Walker & Sanders on subterranean clover. By B. D. Thomson, A. D. Robson and L. K. Abbott 463

The effect of soil disturbance on vesicular–arbuscular mycorrhizal fungi in soils from different vegetation types. By D. A. Jasper, L. K. Abbott and A. D. Robson . . 471

Colonization of wheat (*Triticum vulgare* L.) by N_2-fixing cyanobacteria: I. A survey of soil cyanobacterial isolates forming associations with roots. By M. Gantar, N. W. Kerby, P. Rowell and Z. Obreht 477

Colonization of wheat (*Triticum vulgare* L.) by N_2-fixing cyanobacteria: II. An ultrastructural study. By M. Gantar, N. W. Kerby and P. Rowell 485

Reviews 493

AUGUST 1991 VOLUME 118 NUMBER 4

Studies on the localization of a protein, immunologically similar to a 62-kilodalton sucrose-binding protein isolated from developing soybean cotyledons, in the shoot and root of spinach. By Robert D. Warmbrodt, William J. Vanderwoude and William D. Hitz 501

Environmental factors influencing photosynthetic efficiency of the micro red alga *Porphyridium cruentum* (Agardh) Nägeli in light-limited cultures. By Edmund T. Y. Lee and Michael J. Bazin. 513

The action spectrum of far-red light in interaction with orange light on orientation of chloroplasts in *Mougeotia*. By Z. Lechowski and J. Białczyk 521

Development of the ovular structures in peach [*Prunus persica* (L.) Batsch]. By Arancha Arbeloa and Maria Herrero 527

The branch roots of *Zea*. II. Developmental loss of the apical meristem in field-grown roots. By G. T. Varney and M. E. McCully 535

Identification and quantification of trehalose in vesicular-arbuscular mycorrhizal fungi by *in vivo* ^{13}C NMR and HPLC analyses. By G. Bécard, L. W. Doner, D. B. Rolin, D. D. Douds and P. E. Pfeffer 547

Effects of phosphate supply on wheat seedlings infected with powdery mildew: carbohydrate metabolism of first leaves. By J. N. Zulu, J. F. Farrar and R. Whitbread. 553

Biology and effectiveness of *Uromyces heliotropii* Sred., a potential biological control agent of *Heliotropium europaeum* L. By S. Hasan and E. Aracil. 559

The influence of an inhibitor of phytochelatin synthesis on root growth and root meristematic activity in *Festuca rubra* L. in response to zinc. By K. L. Davies, M. S. Davies and D. Francis 565

The effect of soil water potential on seedling growth of some British plants. By Ceri E. Evans and John R. Etherington 571

Concurrent exposure to SO_2 and/or NO_2 alters growth and yield responses of wheat and barley to low concentrations of O_3. By G. Adaros, H. J. Weigel and H. J. Jäger 581

The distribution of planktonic dinoflagellates and their cysts in the eastern and northeastern Atlantic Ocean. By J. D. Dodge and R. Harland 593

Reviews 605
